

Dense one liners from the founder...

Simple faith, non resistance, and love

Mystery is in the unseen – Practical spirituality

Think only what you wish to experience

Pining for the eternal

Plant the seeds and watch them grow

Every serious thought is a prayer

All healing begins with a change in belief

Evolution of consciousness – Awaken consciousness

Act the way you want to be and you will be the way you act

The problem is spiritual, the solution is spiritual

Grow the grain to choke out the weeds

The best prayer is “thank you”

The essence of all religion is love, but love has no religion, and every heart is a temple.
